DETAILED ACTION

Specification

1. The abstract is objected to because it lacks a concise statement of the technical disclosure of the invention.
2. The specification is objected to because it contains an embedded hyperlink on page 1, line 10. Applicant is required to delete the embedded hyperlink. See MPEP § 608.01.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
4. Claims 1-18 and 29-30 are rejected under 35 U.S.C. 101 because the claimed invention is directed to data structures, which is non-statutory subject matter. Such claimed data structures do not define any structural and functional interrelationships between the data structure and other claimed aspects of the invention which permit the data structure's functionality to be realized.

Claim Rejections - 35 USC § 112, Second paragraph

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claims 1 and 29, parameters L, X and N are not defined.

Re claims 16, 19 and 25, parameters L, X, N and L are not defined.

Re claims 1 and 29, it is not clear what a value is.

Re claim 29, it is not clear what is meant by "integer multiplied by a step".

Claims 2-15, 17, 18, 20-24, 26-28 and 30 depend from claims 1, 16, 19, 25 and 29, respectively, are similarly rejected.
